*Mens Seminar*  
**GENESIS  
PROJECT**  
Sept 2nd-5th 2011

*Wounded Warriors*

Men hold a shield around their hearts that is often full of holes. Whether they are fallen or active in relation to God, bleeding on the inside is not uncommon for today's modern man.

Inner voices to be strong, and undefeatable creates an impossible image for us to live up to. With pressures from work, marriage, kids, and biblical leadership upon our shoulders, failure in one or all of these areas often takes us from achieving to a mere existence.

After we get the wind knocked out of our sails it is often easier just to never try again. God is here to breath a breath of life back into our hearts and to heal all of the self inflicted wounds from our own swords.

Come for an unforgettable weekend where God can become real and close again. Experience the victory of the cross of Christ for your life!
